

Production Technician

Description:

Motion Metrics International is a high-tech private corporation located on the University of British Columbia campus. Motion Metrics designs, develops, and deploys advanced monitoring solutions for heavy-duty industries. Our products combine custom-designed rugged hardware and “embedded + cloud-based” software to address some of the most challenging problems in the mining industry by using imaging and other sensor technologies. If you enjoy being part of a tight-knit team and creating high quality products with high attention to detail and accuracy we would love to hear from you.

Responsibilities:

- Hardware assembly and soldering
- Quality check of embedded computer systems.
- Preparing shipping documents and packaging.
- Work order entering.
- Data entry including check in & check out records, customer support and receiving records.
- Inventory check.
- Lab/office organizing.

Requirements:

- Have a technical Diploma or Degree in an electrical or related field.
- Enjoy hands-on activities.
- Good working knowledge of Microsoft Office Word and Excel.
- Highly organized and can work with minimal supervision.
- High attention to detail and work well under pressure.
- Excellent work ethic and high dedication to work quality.
- Enthusiastic, with a desire to learn.
- Excellent communication and documentation skills.

Motion Metrics International Corp offers a generous compensation package and benefits, as well as a fun and driven work environment and culture. Interested candidates please submit your resume with cover letter to careers@motionmetrics.com. Due to high volume of applications we receive, only those selected for an interview will be contacted.
